This item has been successfully added to your list. The demands placed on both hands in guitar playing are roughly equal, on average, and part of learning guitar is developing the capabilities of both hands. Any opinion on such a purchase?

With that said, there are models out there whose action can be set up in a way that is more suitable for children. Another difficulty is that all the knobs on the guitar are highly attractive and distracting to smaller children. Ask the employees at the shop, and let the kid try different ones. Let your child try the instrument. The question of how much to spend is highly subjective. You can also shop for a print or pattern that can appeal to your child.
