In any case, if it is not obvious, the Scope of Practice presented in this exploratory study reinforce the importance to reform the regulations of health professions in Brazil. For example, patients can choose to have midwife-led care where the midwife is the lead professional looking after the patient, rather than playing a supporting role to a doctor. If there was an efficient X - Ray service here, I could have already done the X-rays, and see them Scope of Practice time and be able to treat the patient without the need to refer the patient to go to another place to do this procedure.

ScopeandStandardsofPractice,2ndEdition. Nursing council to broaden the nurse practitioner scope of practice. Among the activities listed for the nurses, the most common performance in the UBS were: The nurses, however, reported to know how to perform more procedures than those performed in the units. Advancednursingpracticeinruralandremotesareas.ANA remains committed to monitoring and advocating for legislative and regulatory changes relating to scope of practice, with the aim of removing practice barriers for nurses and improving access to care, with particular attention to:
