The web server responds to the archiving repository crawler by sending both the resource and the just-in-time generated metadata as a straight-forward XML-formatted response. In addition to her university responsibilities, she is active nationally and internationally in several archival associations, gives numerous papers and workshops in several countries, and publishes widely on archival history and theory, and on diplomatics.

This is the original version of an article published in Scientific American. Material in this class is, very roughly, a subset of that covered by Art and Archaeology Technical Abstracts classification category G Green Models for Action: The major objectives of this research project were to develop a set of well-defined recordkeeping functional requirements -- satisfying all the various legal, administrative, and other needs of a particular organization -- which can be used in the design and implementation of electronic information systems. Just because your scanner has a picture choice in its menu, that does not mean it should. Canadian Archivist Collection
