Darius is becoming more and more dependent on Reagan in this latest book in the Fire and Ice Trilogy. Reagan, though she will never admit it, feels the same.

And it seems that although I initially thought this would be a stand-alone, the ending did not indicate that intention. Some of the exchanges between Gage and Bailey run really deep, opening up feelings that neither of them had ever shared with anyone. Reagan has realized her powers are not inherently evil they are an amalgam of demon powers, and just like any human a blend of all that result in a gray area that can be used for good or bad.

What a beautiful cover. Arrogant as he is, he sets the machine in motion. I really wanted to see where the author went with this...blending the worlds of faeries, elves and witches, as well as the prophecies affecting them all, and overall I thought her ideas were great!
