This is a difficult challenge for policies as well as for informal and formal care practices, with strong implications as to how care services and care work are organized and provided. It is clear that corporate governance enforcement and other legal issues is an increasingly important area of focus and substantial discussion should be arranged.

Five plenary lectures will cover a wider range of topics and a special lecture will be given. Your registration will be confirmed by email. In the web page header: In particular, in recent years the studies on Roman Archaeoastronomy received a considerable boost, as well as those on Roman architecture both of buildings and of entire landscapes.

These mathematical models have been used to interpret clinical data and research from computational and experimental perspectives.
