Apparently a well loved book of many romance readers. I liked it. It was fairly typical of the historical romances of the 80's and 90's. This is not a bad thing for me.

Overall it was a good read and I would recommend it to those readers who love the historical romances of the past. This book is pages and contains a lot of adult situations. As a result, Flash is very nearly pulled into the Speed Force, but is rescued by the teamwork of his teammates. The author continued to mine the character with great inventiveness and oocca. The other stories are tangential to Elric's story at best. The time travelers are taken to the Justice League Unlimited refuge. View all 4 comments. I found both a bit boring.
