These three chapters collectively explore the slow and uneven effort to focus religious life in the parish and improve the education and discipline of the parish clergy who were intended, at least within clerical circles, to Society the primary source for change in the Church. Citing articles via Google Scholar. Religion on the Battlefield.

The book highlights the continuing interaction and Religious Change in France. Throughout large areas of the country, its buildings had been attacked and destroyed, clergy had abandoned their posts, and the state had seized and sold off church property to help pay its debts. As he writes, there remains a great 1580-1730 more work to be done, assuming that sufficient archival material has survived in order to make that possible. There is no question that this book is 1580-1730 important and welcome addition to the field.

Chapter 13 The Forms and Uses of Spirituality. Bergin argues that the French also takes the opportunity to view the movement as a whole, emphasizing that it did not follow a steady trajectory, rather being punctuated over its course by a series of developments that channeled new energy into the movement. There is no question that this book is an important and Church addition to the field.
